SIR BRYAN MAHON GOES TO SERBIA

London, Oct. 28, 4:42 p. m.—Sir Bryan Thomas Mahon has taken command of the British forces in Serbia. This announcement was made in the house of commons this afternoon by Harold J. Tennant, parliamentary undersecretary for war.

Lieutenant General Sir Bryan Thomas Mahon gained fame as leader of the expedition that marched to the relief of Mafeking in the South African war. The relief of that town caused greater joy in England than any other single event of the war. It was stoutly defended against the Boers for seven months by a small force.

From a point near Kimberley a flying column of mounted men under command of Colonel Mahon started northward on May 4, 1900. On the 15th it was joined by another detachment and the two columns advanced on the works of the besiegers, drove them out by hard fighting and entered the town on May 18. The defense of Mafeking, which was set down as one of the finest performances of the war, was in charge of Colonel (afterward lieutenant general) Sir Robert Baden-Powell, who founded the organization of boy scouts.

Sir Bryan Mahon, who is 53 years old, also saw distinguished service in India and Egypt. He took part in the Dongola expedition in 1896, when the Egyptian army under General Kitchener recaptured from the mahdi that province; the Khartoum expedition and the Kordofan expedition, afterward becoming military governor of Kordofan.

In August, 1914, Sir Bryan was appointed a division commander with the rank of lieutenant general. He is one of the governors of the Royal Hibernian Military school, Phoenix park, Dublin. General Mahon was born at Belleville, county Galway, and his residence is in Dublin.

New York, Oct. 28.—Agents of the Russian government, it was reliably reported here today, are seeking to establish a credit loan in this country, somewhat similar to the recent \$500,000 Anglo-French credit loan—although no bond issue is contemplated—of from \$50,000,000 to \$100,000,000, and more, if it can be obtained.

Details of the proposed loan were lacking, but in one quarter it was reported that the Russian government was willing to pay as high as 9 percent interest for a loan of this size. This report added that the loan probably would be for eighteen months and would be in the neighborhood of \$50,000,000.

It is said that negotiations looking to the establishment of the loan have been under way for some time and that a definite announcement might be forthcoming soon. This, however, could not be confirmed.

The sum said to be sought by Russia would be spent entirely in this country in payment for supplies ship-

ped to Russia by American exporters. The volume of supplies leaving here for Russian ports is reported to be enormous. Imports are at their lowest ebb in years and consequently disturbance of the foreign exchange markets has reduced the value of Russian rubles in this country to a recent low record of almost 40 percent of depreciation.

Every family has a skeleton, see Holbrook Blinn in "The Family Cupboard," and find the way to peace and happiness, at the Isis today.

STRONG EFFORTS TO SAVE GERMANS

New York, Oct. 28.—A bitter legal battle is impending to save Lieutenant Robert Fay and his associates in the bomb plot, from prison.

Max Bretting, held as one of the financial backers of Fay, conferred for two hours today with John B. Stanchfield, the noted criminal lawyer. At the conclusion of this conference Bretting, counsel for Dr. Herbert Kienzie, another of the alleged conspirators, also had a long talk with Stanchfield. Kienzie was released in \$25,000 bail today.

It was announced tonight that Stanchfield is to take general charge of the defense of the accused men. All the funds necessary to protect the interests of at least of Bretting and Kienzie will be forthcoming, and it is believed that as co-defendants the others will profit thereby.

None of the plans for the defense have yet been disclosed, but counsel for Fay today intimated that he might test the accuracy of "alleged" statements made by his client. Counsel for Scholz at the same time denied that his client had any occasion for turning "traitor."

Denial that a crime had been committed probably will be the general line of the defense. District Attorney Marshall today admitted he had not yet made up his mind under what statute he would proceed.

Lawyers pointed out today that the five defendants might be prosecuted under the Sherman anti-trust law for conspiring to interfere with domestic and foreign commerce.

A writ of habeas corpus in the interests of the five men may be one of the first moves made by the defense. This would be designed to force the government to disclose its case against the defendants.

The hearing of the five men is fixed for next Thursday. On Monday probably the new federal grand jury will be sworn in. Indictments are looked for promptly.

There is also to be documentary evidence of Bretting's financial dealings with Fay. From Chicago tonight it was learned that Paul Sieb, who was used as a government witness in the case, was an employee of the Public Service company of North Illinois and was known as "count" and "the man of mystery."

Louis Jersawitz, his attorney, promises a full statement from Fay after a consultation which they are to have in the Tombs on Saturday.

COUNT DE HEMPTINNE SHOT BY GERMANS
Amsterdam, via London, Oct. 29, 4:20 a. m.—The Echo Belge says that Count Joseph de Hemptinne was executed at Ghent on October 26. He was a member of a prominent Catholic family.

A Rome dispatch of October 19 said that Pope Benedict, at the request of the British and Belgian legations, had interceded with Emperor William on behalf of Baron de Hemptinne, condemning to execution by the German authorities.

WAREHOUSE OF THE B. AND O. DESTROYED

Baltimore, Oct. 28.—The United States bonded warehouse on Piers 34 and 35 of the Baltimore & Ohio railroad at Locust Point, was totally destroyed by fire tonight. The records were destroyed and estimates of the value of the contents of the warehouse varied between \$300,000 and \$400,000. The building and piers were valued at \$150,000.

By hard work the firemen kept the flames from two grain elevators, 200 feet away, which contained 2,000,000 bushels of grain. Most of the contents of the warehouse had come recently from London and Liverpool.

The fire is thought to have started from crossed wires in the warehouse.

PERHAPS.
Mr. Gotham—I see the smallest cows in the world are found in the Samoan Islands. The average weight does not exceed 150 pounds. They are about the size of Merino sheep.

Mrs. Gotham—Do you suppose, dear, that is where they get the condensed milk?—Yonkers Statesman.

RUMANIA MAY ENTER THE WAR

Paris, Oct. 29, 4:20 a. m.—The Saloniki correspondent of the Petit Journal learns from a reliable source that Rumania has mobilized 450,000 men, of whom 200,000 are concentrated on the Bulgarian frontier and the rest on the Hungarian frontier, where impenetrable defenses have been constructed.

London, Oct. 28, 9:45 p. m.—Outside the German official statement which records the advance of the Austro-German forces and the capture by the Bulgarians of Zajcar and Klujevat, both on the Thack river northeast of Nish, and the heights of Nish, almost directly east of Nish, there is little or no authentic news of the invasion of Serbia.

There are reports, however, that the Serbians have recaptured Uskup, which is not improbable if, as Saloniki dispatches report, the French now hold the line of Kricolak, Radovista and Strumitsa, for with an army there and the Serbians at Veleus, Uskup would form a dangerous salient.

For the moment, the danger spot for the Serbians is the northeast corner, where they are being attacked from three sides and must eventually fall back toward the southwest. Thus far they have been retiring in good order, and, despite the seriousness of the situation, optimism prevails in Serbian quarters in London, which probably are best able to judge of the assistance being sent by France, Great Britain and Russia.

The French, according to German dispatches, have already landed 150,000 men, with 100 guns, at Saloniki. While the whereabouts of the British reinforcements remains a secret, that they are of considerable size may be judged from the fact that, although General Sir Charles C. Monro, recently appointed to command the Gallipoli operations, is already on the spot, the government has decided to send Major General Sir Bryan Mahon, who commanded the columns which relieved Mafeking in the South African war, to co-operate with the French.

Greater anxiety exists as to the attitude of Greece. It is known that Austria, Germany and Bulgaria have seriously complained of the continued hospitalities shown the allies at Saloniki and one account goes so far as to say that the Greek government has asked the allies to leave Greek territory against this is the quoted assurance given by the Greek minister at Paris to the French government that Greece has no intention of committing any hostile act toward the allied troops.

Except around Riga and Divinsk, where the Germans are renewing their efforts to reach the Dvina river, and near Czartorysk, on the Sty, there has been no heavy fighting in the Russian arena. Engagements on a small scale have taken place west of Riga, showing the Germans are attacking in that direction. Hitherto, their main attacks have been from the south and southwest of that city where they were checked. On the Sty and in Galicia the German offensive, according to Russian report, has been stopped.

NO PEACE TERMS ARE CONSIDERED

London, Oct. 28, 4:06 p. m.—An emphatic denial that Great Britain was engaged in any peace negotiations, direct or indirect, was made by David Lloyd George, the minister of munitions, in reply to a question in the house of commons today.

GERMANS DENY CAVELL REPORTS

Berlin, Oct. 27, by wireless to Sayville.—The Overseas News Agency today gave out a statement regarding the case of Miss Edith Cavell, the English nurse who was executed recently in Belgium, at the outset of which it declares "the American minister at Brussels (Brand Whitlock) states that the British publications regarding the Cavell case are untrue so far as he is concerned."

"The British government," says the news agency statement, "published the correspondence between the American authorities there in the Cavell case, the correspondence having been put at the disposal of the British government by the United States ambassador in London."

"The principal facts are misrepresented especially the statement made in it appear that the German authorities, by vain promises, had put off the minister in order to conceal the sentence, by which means he was robbed of the possibility of intervention on behalf of Miss Cavell, the sentence being hastily executed in the meantime. Further, Sir Edward Grey stated that the German authorities had not kept the promise given to the American minister to inform him about the course of the proceedings."

"The German authorities never gave such a promise, this being admitted by the United States minister in Brussels. The minister further states that he was most painfully affected by the publications and will immediately notify the American ambassador in London and the United States government."

RULERS HAVE NARROW ESCAPE

Paris, Oct. 27, 5:40 p. m.—Four shells exploded only 200 yards from King George of England and President Poincare of France during their visit to the front yesterday, according to a Temps correspondent back of the firing line.

The king and the president, with the Prince of Wales and General Joffre, says the dispatch, had taken a point of observation when a German battery fired two heavy shells, resulting in the explosion of shells near the official party.

FRENCH LAND A ARMY OF 150,000

London, Oct. 28.—The French have landed 150,000 men and 100 big guns at Saloniki and are preparing to move to the aid of the Serbians, according to dispatches from both Bucharest and Vienna tonight.

The French forces already in Serbia, operating in connection with the Serbs, are reported to have recaptured Uskup, the important point on the Nish-Saloniki railway which fell to the Bulgarians several days ago.

The entire Veleus district has been cleared of the invaders by Franco-Serb troops, according to Saloniki dispatches, while French troops on the Kricolak-Adovitch line are pressing forward against Istip, with the Bulgarians in retreat before them. Istip is said to have been evacuated.

Turkish troops are being rushed to Varna, Burgas and other Bulgarian Black sea ports to oppose landing by the Russians. It is reported, in addition 70,000 Turks have arrived at Dedegatch, the Bulgarian port on the Aegean sea, to withstand any attempt by the allies to land troops.

UTAH LAND TO BE ENTERED UPON

Salt Lake, Oct. 29.—Plats of surveyed government lands in Washington, Emery, Tooele, Iron, Kane, Grand and Garfield counties, Utah, have been filed with the United States register of the Salt Lake land office and the tract, which will comprise about 500,000 acres will be declared open for entry in December.

The clerical work of getting the plats in readiness and the exact date upon which the register will determine the opening will require another day. Much of this land, particularly in Iron, Kane and Washington counties, will be entered by Los Angeles and other California land seekers, according to information from southern Utah. They have been waiting down there for the date of opening. The United States general land office recently accepted and returned the plats to Surveyor General Thoresen, who in turn filed them with Register Gould B. Blakely.

DISCOVERY IN THE WILDS OF BRAZIL

Philadelphia, Oct. 28.—An account of the discovery of the original habitat of the Mundurucus Indians, a little known tribe of savages, was received today from Dr. William C. Farabee, leader of the University of Pennsylvania museum's Amazon expedition. Dr. Farabee wrote that he had spent several months in Brazilian wilds never before visited by white men and that he had made important geographical, zoological and ethnological discoveries.

After going up the Cururu river for some distance the expedition branched off to the east on foot into what is called on the maps "Capo Gera," but of which section little or nothing is known. Dr. Farabee placed this country for 200 kilometers, and it was here that he located the Mundurucus. He spent a long time among these Indians, studying their language, their manners, and customs, and making a vocabulary as a result of which he expects to absolutely settle the question of the relation of this tribe to the Tupi. As for the country itself, Dr. Farabee reported that it was nothing but a worthless, semi-desert area, hilly and rough and not good for grazing purposes. The expedition, which has been in the Amazon country for nearly three years, left almost immediately for further work of exploration.

BRITISH CAPTURE ESCAPED ENEMY

New York, Oct. 28.—The six warrant officers of the interned German raider Krouprinz Wilhelm, who escaped from Norfolk, Va., October 10, on the yacht Eclipse, were captured at sea by a British warship, according to information in a letter received here today. The letter was sent to William Wolff, a New York manufacturer, by his mother-in-law, who was a passenger on the steamer Bermudian, which left New York for Halifax last Wednesday.

According to the letter, the Bermudian was stopped a short distance from its destination by a British cruiser, which engaged the passenger vessel in wireless conversation. The substance of the talk, as told by the wireless operator of the Bermudian, was that the cruiser, the identity of which is not given, had overtaken the missing Eclipse at sea, made prisoners of the German officers and sunk the yacht. The letter gives no other details.

Reports have been current in shipping circles here for several days that the yacht had been captured by a British cruiser believed to have been H. M. S. Melbourne.

FREIGHT CAR FALLS OVER ON BRAKEMAN

Salt Lake, Oct. 29.—When a freight car on the Park City branch of the Denver & Rio Grande turned over near Twelfth South and Twelfth East streets yesterday morning, William Egly, a brakeman, was pinned beneath the overturned car, suffering painful injuries to the back and side. Egly was standing on the ground when the accident occurred, the car toppling over onto him before he could jump out of the way. Egly makes his home at the St. Albans hotel. He was removed to St. Mark's hospital.

A great moral play, "The Family Cupboard," with Holbrook Blinn, should be seen by all at the Isis today.

INCENDIARIES IN CITY OF SEATTLE

Seattle, Oct. 28.—Fire, supposedly of incendiary origin, destroyed tonight pier 14, at the foot of Broad street, occupied by Dodwell & Co., limited, agents for the Blue Funnel line of British steamers, with much valuable merchandise, entailing a loss that probably will exceed a half million dollars.

The Japanese and Chinese merchandise that arrived Saturday night on the steamer Ixion was still in the warehouse, \$2,000,000 worth of silk brought by the steamship having been sent east. Besides the merchandise just landed from the Ixion, a cargo was being assembled at the pier for the Ixion's trip to Asia. The Ixion is now at Vancouver, and will return here.

The Blue Funnel steamers have been taking much barbed wire, machinery and implements of war for the Russian army. The Ixion is booked to stop at Vladivostok with similar supplies for Russia.

Two deliberate attempts to destroy pier 14 by fire were made early last Tuesday. Both fires were started in piles of highly inflammable rattan stacked on top of rolls of white paper, which occupied a floor space of fifty square feet.

In the dry rattan crumpled newspapers had been placed, in these the first fire was discovered at 1:12 o'clock in the morning and the watchman extinguished it with a hose. Firemen, who were summoned, had just returned to headquarters when a second fire was reported, less than six feet from the starting place of the first. This fire was more dangerous than the first, and burned through the rattan, damaged the paper stock, crept along the wall and damaged tea unloaded from the Ixion.

When the fire was discovered about 6:30 o'clock tonight it had made such headway in the contents of the warehouse and in the wooden walls that the firemen on shore and the fireboats on the water made little headway for a long time.

There was no explosion on the pier, which recently had been extended 300 feet and was one of the largest in Seattle.

RIGHT TO WATER TO BE TESTED

Salt Lake, Oct. 29.—Is the use of irrigation water diverted from land to a tank on a railroad for locomotives, in the operation of trains domestic use?

Such a question may be raised in the United States court for this district when a case in equity filed yesterday by the Southern Pacific against Hyrum Overton, farmer in Boxelder county, comes up for adjudication.

The railroad company asks that the water in question be decreed to it and that an injunction be issued restraining Farmer Overton from interfering with the said water in any way whatsoever.

This is said to be the second chapter to be written by the Southern Pacific over this same water, which comes from the flowing Cress spring on a tract of land adjoining the Rose Bud ranch in the Terrace school district in Boxelder county.

Back in April, 1881, the bill of complaint sets out, Alfred A. Player owned the Rose Bud ranch and used the water from the adjoining land for irrigation. In May, 1900, the Southern Pacific diverted some of the water to its land adjoining and also to the water tank along its line there for use in operating its trains.

Litigation followed between users over the prior right to the same. A line of succession from Player to the Southern Pacific is claimed to have been established. But when Overton went in on the Rose Bud ranch and began to use most of the water again the same question of right, based on domestic and beneficial use, was raised.

Recently the dam which diverted the water to the Southern Pacific was broken, it is alleged in the complaint, and Overton further threatens to shut the railroad off from both the domestic and irrigation use of the water, the bill alleges.

Summons and complaints were turned over to the United States marshal yesterday afternoon by the clerk of the court to serve upon the defendant. Under the rule, the return will be made within twenty days. By that time there will likely be a judge here to set the hearing on the injunction writ asked.

WANTED AN ASSAY ON COCOA BEANS

Salt Lake, Oct. 29.—"Kindly assay these beans and return me the result of the assay, if convenient," is the way a letter yesterday from Ogden to the United States assay office read. The missive was accompanied by a small roll box containing cocoa beans. The owner of the beans apparently thought Uncle Sam's assay office analyzed other things than metals, which is a misapprehension, according to Assayer Charles Gammon.

"I suppose the Ogden citizen wanted to find out the fineness and purity of the beans," remarked the assayer. So he bundled them up and sent the box and letter to the state chemist, Herman Harms, who will look after it.

SUBMARINE F-4 IS TO BE DISCARDED

Washington, Oct. 28.—Submarine F-4 in which twenty-one officers and men of the navy lost their lives last March at Honolulu, will not be repaired. Naval officials said today the vessel's injuries were so extensive that it was not considered practical to repair and refit the boat.

The other three boats of the F-4 class will be towed to San Francisco for refitting, and have already been taken out of commission until this is done. Congress will be asked this winter to provide for new engines and batteries for the boats, as the present equipment is unsatisfactory. The report of the board of officers

The Doctor's Advice

by Dr. Lewis Baker

The questions answered below are general in character. The symptoms or diseases are given and the answers will apply in any case of similar nature. Those wishing further advice, free may address Dr. Lewis Baker, College Bldg., College-Elliott Sts., Dayton, O., enclosing self-addressed stamped envelope for reply. Full name, and address must be given, but only initials or full name will be used in my answers. The prescriptions can be filled at any well-stocked drug store. Any drugstore order of wholesaler.

energy. Avoid excesses and dissipation. Use the tablets regularly and start using them now.

"Tiny" says: "I'm so very thin that my friends call me Tiny. I would like to increase my weight 30 pounds. How may I?"

Answer: The continued use of three grain hypo-nucleate tablets taken with your meals should increase your weight in a very short time. I seldom hear of a case where the use of these tablets fail to increase weight and strength. They are highly recommended.

"Engineer" writes: "My work brings me out in all kinds of weather. I had a severe cold and it settled on my kidneys. They pain me very much and I don't urinate much. My system seems all bloated and at night my feet swell. I have some fever and often have chills. It has been several months since I first noticed the pains in my back, and they keep getting worse."

Answer: Symptoms indicate your kidneys are in bad condition. There is likely some congestion and inflammation. Get a tube of balmwort tablets and take regularly according to directions. Try to keep the cold and in a little while you should feel alright again.

"L. F. W." writes: "I think I need a medicine to build up my blood and make it pure. Also I have chronic constipation."

Answer: Nervousness, sleeplessness, yellow complexion, coated tongue and bad breath, with fever and headache result from impure blood which is the result of constipation, indigestion, etc. A real medicine is three grain sulphur tablets (not sulphur) I have prescribed these thousands of times with great success. —Advertisement.

GREAT INCREASE IN RECRUITING

London, Oct. 28, 9:05 p. m.—There has been a great increase in recruiting throughout the country during the past week, according to a number of newspapers. The Manchester Guardian says recruiting is now going on at a higher rate than any reached since the early months of the war.

King George's proclamation and the execution of Miss Edith Cavell in Belgium both having been the cause of bringing many into the ranks. The increase, it is noted, is despite the fact that Lord Derby's scheme for calling men by sections, drawing first the unmarried and those not engaged in work connected with military production, has not yet been put into operation. Manchester and Birmingham are included among the centers showing the best results.

One of the chief obstacles confronting the authorities is the attitude of many employers who, instead of urging their men to join the colors, are not only refusing to grant them allowances as was done in the earlier stages of the war, but will not guarantee that employees who enlist shall be reinstated in their positions on their return. This matter is being investigated by labor leaders, who probably will make a report to Lord Derby.

Arthur Henderson, president of the board of education, has addressed a circular appeal to teachers throughout the country, urging all those who can to enlist.

PROPERTY IS BOUGHT
Salt Lake, Oct. 29.—An important real estate deal, which has been under way for several weeks, was closed yesterday when the property of the Union Stock Yards company in North Salt Lake was taken over by a party of local capitalists. The consideration was \$65,000. Simultaneously with the closing of the deal a new concern, known as the Salt Lake Stock

Yards company, was formed, and articles of incorporation were filed with the secretary of state. The officials of the new company are Thomas Austin, president; E. C. Parsons, vice-president; Fred J. Leonard, secretary and treasurer; C. H. Stewart, B. D. Field, H. A. Smith and John Nebeker, directors. The new company is capitalized for \$100,000.

The first payment on the property was made yesterday by the new company. A second payment will be made as soon as the abstract of title is completed and then the new owners will begin at once the erection of a modern stock yards. Modern buildings will be erected near the tracks of the Denver & Rio Grande and the Oregon Short Line immediately north of the plant of the Intermountain Packing company. It is expected that the work will be started within the next thirty days.
